

# YALGOO MERINOS NEED MORE EVIDENCE?

This is one of the highest indexing sales in Australia: 2017 sale team average in the top 4% of the breed for the FP+ index and top 25% for MP+

Yalgoo flock averaged 5.9% genetic gain per annum in \$/DSE from 2009 to 2015

Yalgoo merinos bend the Fleece Weight/Fibre Diameter curve. In the past 10 years we have increased genetic CFW by 20% and decreased F.D by 0.4 micron

Yalgoo's rate of gain has been twice as fast as the average superfine flock for FP+ (250%) and MP+(160%) indexes over the past 10 years

Yalgoo has 6 of the top 10 ranked superfine sires in the industry

Every sale ram is backed by nearly 50 years of objective measurement. Meaning genetic progress is both rapid and assured

Sale rams are mainly drawn from the top 30% of the drop

Yalgoo merinos demand a premium in the market place. Yalgoo surplus sheep have averaged 35% more than market day averages over the past 7 years.

## Most importantly Yalgoo rams **WILL MAKE YOU MORE MONEY ...**

The average Yalgoo sale ram will deliver \$3600 over the average merino ram in the sheep genetics database

The average Yalgoo sale ram will deliver \$5040 over the average superfine merino ram in the sheep genetics database

**ANNUAL YALGOO RAM SALE - 3RD OF FEBRUARY 2018 11AM - YALGOO WOOLSHED**
