ASBVS

Notes on Sires

- 160070**
- One of the industry's highest used/ accuracy sires with over 2600 progeny recorded on SG
 - Their performance has underpinned his importance to the industry
 - He gets his superior wool quality from his 070441 dam and his cut and body shape from his sire CP204
 - Wool is ideally nourished, extra soft, white and crimp with a great tip
 - 70 exhibits extra length, has good feet and excellent overall confirmation and negative WEC
 - Used in reference flock, MSS and MLP
 - High repeat use sire

- 170537**
- Unique ram that combines huge cut with a balance of wool, carcase and WEC traits
 - One of the highest ranking, proven sires on our Y/7-15 Profit index
 - PRODUCTION +++ CFW ASBV of 42, Raw Data GFW of 210% combined with a strong phenotype
 - Exceptional, elite, bright, white wool with serious lustre and ideal tip
 - In my opinion an "Industry ram", relevant to all micron ranges and environments
 - Has grown into a big robust ram
 - The premier proven sire we have used for boosting cut, yet maintaining a white, weather resistant attractive wool type
 - Will continue to see heavy use at Yalgoo

- 180002**
- Wool quality king
 - Incredibly soft handling, elite wool
 - On current wool prices 18/2 has the genetic potential to gross nearly 3 times the industry average merino adult ewe for fleece value
 - Progeny have extreme fleece quality, acceptable growth and WECs
 - The most stylish wool we've had since 070441. Wool is completely untarnished from repeated years of over 1000ml of summer dominated rainfall
 - 180002 cut 131% of 12.7 micron wool at 1yo
 - Use to rapidly increase fleece value

- 190110**
- The most complete phenotype of our Woodyarrup sons
 - Best woolled son with good structure & low wrinkle (EBWR & EBCOV)
 - Large frame with a great balance of fleece traits, WEC and acceptable carcase
 - Well proven now, with great reviews on progeny
 - Very low wastage rate
 - Great balance of data, being top 30% or better for 9 of 11 profit driving traits
 - One of the best combination of income and COP traits that we can find
 - Will continue to see heavy use at Yalgoo

- 190193**
- A phenotypic stand out of the 19 drop
 - Sire 63 has done a great job in stamping progeny with a superior, consistent "weather-proof" wool
 - Open faced ram with carcase, extension and mobility
 - White, bright, traditional yet productive wool
 - A sire to re-enforce wool quality, phenotype and carcase traits
 - Awesome structure

- 190306**
- Out and out wool quality ram
 - Great structure
 - Good carcase
 - One of the top, young FP+ sires in the breed
 - High use sire in the industry in 2020, 21 and 22

- 200204**
- 204 has white, bright higher crimp frequency wool
 - Good feet, open face
 - High production – Top 30% CFW 3% FD
 - Low cost - Top 1% WEC
 - Yearling FD: 14.5 GFW% 124%

Notes on Sires ... cont

- 200213**
- Tank of a polled ram with exceptional raw data for a TWIN
 - Moderate frame, but very wide hip to pin
 - Very heavy, bulky white wool
 - High production – Top 10% CFW and FD
 - Low cost – Top 5% WEC
 - One of the industry's best combination of wool, carcase and WEC traits
 - Epitomises our direction of producing high income, low cost sheep with carcase and constitution
 - Will see heavy use at Yalgoo
 - Yearling FD : 14.4 GFW% 136%

- 200629**
- Homo PP, TWIN born ram
 - Perfect independent structural scores
 - Bolder wool type, but exceptional handling wool reflected in his wool quality ASBVs (top 1% FDCV and 5% SS)
 - Thinner skin with long staple length
 - High production – Top 20% CFW Top 10% FD
 - Plainer 537 son
 - Positive carcase traits
 - Highly regarded
 - Yearling FD 14.6 GFW% 112%

- 210235**
- Our keeper son from CP 350
 - Good option for those who want to decrease FD, whilst increasing growth and decreasing wrinkle and breech cover
 - Ideal for superfine, high wool quality, non-muessed and RWS accreditation programs
 - Very stylish, soft handling, white bright wool with lustre
 - Top 1% FP+, top 5% MP+
 - Yearling FD 13.9 GFW% 101%

- 210286**
- 2nd heaviest cutting ram in the 2021 drop
 - Looks to be a strong candidate to replace his sire 170537
 - 537's progeny are one of the industry's best options for increasing kg/CFW/ha
 - Good feet, massive barrel and hind quarter
 - Very bulky, dense and stylish wool
 - High fleece value ram being top 5% for CFW and FD = high profit ram
 - Top 1% FP+, MP+, top 5% DP+
 - Yearling FD 15.1 GFW% 156%

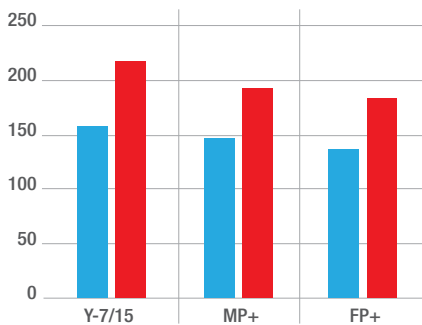

- 210416**
- 416 looks to be the dependable all-rounder of the 21 drop
 - Strong independent score's for structure
 - Exceptional balance of fleece traits
 - Safe, white, bright, soft, traditional styled wool
 - Plain and clean
 - Top 1% FP+, top 5% MP+
 - Yearling FD 15.7 GFW% 106%

- 210430**
- If 416 is the Steve Waugh of the drop, then 430 is the Ricky Ponting
 - 2nd highest 21 drop ram for MP+ in the industry
 - 3rd highest 21 drop ram for FP+ in the industry
 - Use to increase fleece value and kg/CFW/ha
 - Top 1% CFW Top 10% FD Top 5% SS Top 20% FDCV
 - Heavy, bulky and stylish white wool
 - Good feet, square ram with plenty of volume
 - Ram carries some pigment on his nose
 - Top 1% FP+ MP+ Top 3% DP+
 - Yearling FD 14.4 GFW% 145%

- 210532**
- A different type to the rest of the semen sires included
 - Although not carrying the fleece value of the other sires. He was included for those with a higher growth and reproductive focus who still require a soft handling, weather resistant wool with high SS and low FDCV
 - British breed type body, yet still carrying a heavy fleece and optimal wool coverage
 - Moderate frame, meaty, and plain
 - Massive YWT in top 1%
 - Negative breech wrinkle and breech cover
 - Positive carcase traits
 - Well in the top 1% for his scrotal yearling ASBV which will assist in joining ewe lambs/ rams
 - Only ram in the catalogue that is top 1% for FP+, MP+ and DP+
 - Yearling FD 15.8 GFW% 117%

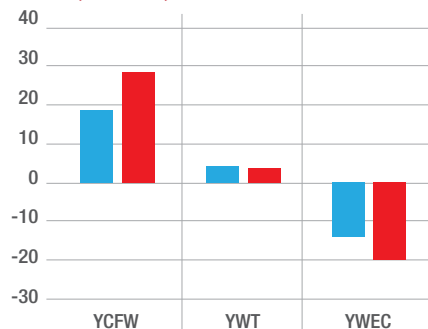

We wish you all the best for the New Year. As the industry continues to segment into high fleece value/ high cost of production sheep and low fleece value/ low COP sheep, we are striving to add value on both sides of the Profit and Loss statement. The balanced approach with a high fleece value focus remains our best opportunity to achieve higher levels of profitability into the future. Please let me know if we can assist you.
